

A Letter to My Year 6 Self

When I think back to the last few weeks of Primary School, I had a few worries and anxieties about starting High School.

I was worried that I wasn't going to make any new friends, because I didn't know anyone at the school. But, I have made lots of friends now and people have been so nice.

I was a bit worried about all the different lessons, but I have really enjoyed learning new things. One of my favourite lessons is Science. I like it best when we do practical lessons

in the labs. They are so much fun.

IT lessons are also one of my favourites. I like it when we get to work at our own computer, and sometimes we are allowed sit next to our friends in the lesson.

I have enjoyed being at North Huddersfield Trust School and I now know that I didn't really have anything to be worried about.

Yours Sincerely,

Sydney Barclay

(Previously of Lindley Junior School)
