

# A Letter to My Year 6 Self

When I think back to the last few weeks of Primary School, I had a few worries and anxieties about starting High School.

I was worried that I wouldn't get on with people and what would new people think of me. But, that hasn't really been a problem.

I was a bit worried that I might not be able to concentrate properly in class, as I always used to be quite chatty. I am a lot better now and staff have helped me with that.

I was worried that the teachers would be really strict. Most are, but it is better for learning in the lessons.

I was really looking forward to learning new things, which I have. PE is my favourite subject. The lessons are fun. I really enjoy the Technology lessons as its great being in the workshops and making things. Art is also good as I think I have got better at drawing.

I enjoy spending break and lunchtime with my friends as I made a lot of new people since joining North Huddersfield Trust School.

Finally, you don't have to be worried about anything. It's good to have new challenges in your life. I am really enjoying myself at NHTS.

Yours Sincerely,

Tierra T

(Previously of Netherhall Junior School)
